Studying EuMIGS in Osnabrück

EuMIGS is a network of [Master Programmes in Migration Studies](#) in several European countries. It offers master students the opportunity to obtain a Double Degree. Students participating in the [Double Degree-Programme](#) spend the entire second year of their master studies at another institute in another country and are awarded a master degree from both their home and their host institution.

International EuMIGS students who opt for Osnabrück University, Germany, are enrolled into the second year of the local Master's programme *International Migration and Intercultural Relations (IMIB)*. The MA IMIB is a two-year Master with a strong interdisciplinary focus, run by the *Institute for Migration and Intercultural Studies (IMIS)*. The MA engages with migration and its social consequences through a combination of disciplinary perspectives including sociology, history, geography, political science, law, educational science, psychology, linguistics, and religious sciences. Students are trained in critical approaches to and comparative analyses of migration-related phenomena. They learn about theoretical concepts, methodological tools and the conduct of empirical research.

The EuMIGS year at IMIS specialises in ***Migration Regimes in Practice***. Participants study migration, migration-related diversity and processes of inclusion/exclusion as contested issues. As objects of regulation they are produced, defined, structured and observed by various actors, institutions, discourses, and practices – including migration research itself. The following courses are designed for and are expected to be attended by all EuMIGS students coming to Osnabrück:

- Migration Regimes and Space
- Migration Regimes and Social Conflict
- Migration Regimes in Past and Present
- *One elective*
- Two one-day field trips
- Colloquium

As part of the second year all students complete a four-week internship and prepare a Master's thesis. In view of the time line, it is recommended to complete the internship before taking up studies in Osnabrück. In addition to the compulsory courses listed above, EuMIGS students may voluntarily choose further seminars from the local MA IMIB programme depending on language abilities, individual interest and course offers. Please check the current IMIB course programme that changes slightly from year to year.

Second Year Grading and Master's Degree

Students participating in the EuMIGS Double Degree Programme and spending the second year at Osnabrück University (UOS) will need to earn 60 credits through their studies at UOS (see course plan above). The final grade of the master's degree is calculated based on a grade for the first year of the EuMIGS programme, provided by the university where students finished their first year (home university, 50 per cent), and a grade obtained during the second year at UOS (host university, 50 per cent). The second year grade consists of three elements: two graded module theses (counting 16/60 each) and a master thesis (28/60).
